

'Where there's a will there's a way'. For over 30 years that's the belief that's driven our work with some of the poorest and most marginalised communities, like the Dalits, Manual Scavengers, Sex workers, Street Children, Urban homeless, HIV Positive people, Riot victims and the Disabled.

In our own small and not so small ways we've helped bring about many 'small' but significant changes in the lives of such people.

And now, to turn these little changes into a much bigger movement, we need 'You'. So that you can team up with other like-minded socially responsible individuals across the country in a unique new movement for social change called 'Karm Mitra'. Your

efforts would not only help millions of marginalised find answers to their day-to-day survival issues but also help them fight for their rights to social justice and equality. Say for instance the rights of the Manual Scavengers towards a more dignified life or the rights of the Urban homeless towards shelter and employment.

All you got to do to help, is to become part of the 'Karm Mitra' Multi Level Giving, wherein you network with your family, relatives, colleagues and friends to become 'Karm Mitra' members.

And as part of a special effort to involve the youth in this movement, the 'Karm Mitra Multi Level Giving' kit which is normally

available for Rs. 399, is now available at a discounted price of Rs. 199.

But, what's really unique about 'Karm Mitra' is the fact that not only will it help raise funds and support for the marginalised but also earn you many attractive incentives.

So come be a part of 'Karm Mitra' and help bring about the 'change' that you never thought possible.
